

# Multiple Turn Over

## You need

- deck of Multiple Cards
- calculators (optional)
- *Multiple Turn Over* Recording Sheet

**Basic Game:** Numbers 2–50

**Intermediate Game:** Numbers 2–80

**Advanced Game:** Numbers 2–113

**Play with a partner or in a small group.**

- 1 Deal out ten Multiple Cards to each player.
- 2 Players arrange their Multiple Cards faceup in front of them. Each player should be able to see everyone's Multiple Cards.
- 3 The player with the smallest multiple begins. This player calls out any whole number (except 1). Each player records that factor on his or her *Multiple Turn Over* Recording Sheet.
- 4 All the players (including the player who called out the number) search for cards in their set that are multiples of that number. They write those multiples on their recording sheet and turn those cards facedown. If a player has no multiples of a number called, that player writes "none" under "Multiple Cards I Turned Over."
- 5 Players take turns calling out numbers. The game is over when one player turns over all ten Multiple Cards.
