Dear Family Member:

Did you know that millions of years ago giant crocodiles were as long as a school bus? I'm reading all sorts of facts like that in *Meet the Super Croc*. I'm trying to think about what the article is really about. I look for the most important ideas and facts about crocodiles. Then I can tell you about the article in a short way. That's called a summary.

"A lot happened before I became me."

"I used to be an egg. Yes, a tiny egg."

"It was nice being an egg. I was all curled up and cozy."

"I ate and ate and ate. I ate all the leaves on the plant."

"Then I hatched. It was a shock to see what was outside of my egg."

"Then I was ready to become me. That was very nice."
